THE GRUNDY VIDETTE records the death, March 2, at the residence of Capt, Wm. E. Peery, near Jeffersonville, of Mrs. Cynthia A., wife of Col. Robert C. Graham, of Tazewell, in the 48th year of her age.

Mrs. Graham had gone to Capt. Pee-ry's to see the venerable mother of the distress was exaggerated and partly ere-Captain, who died on the 10th of February-where she was taken sick with Billious-Typhoid fever, and was never able to be carried home. She was a plece of the late Mrs. Peery, being the daughter of Steven McDonald deceased, of the county of Wyoming, West Va.

MR. JNO. E. EDMONDSON, late of this county, but now of Sommerville, West Tenn. will please accept, along with our hearty congratulations, our thanks for an invitation to his wedding. He was married March 3d to Miss Flora, daughter of the late Judge Jno. C. Humphreys, of Fayette county, Tenn.

THE Ore Knob mines, over in Ashe county, N. C., are said to yield nearly half a million worth of copper a year, 8 barrels a day.

Only 20 Millions.

The Richmond Wang makes the following calculation, which, so far as we now see, is about correct, and throws ished the pipe. But about the time Stuter, A Summer's Diversion, Rocky art Craven, the trainer, arrived. The Mountain Mules etc. ready reduced her two thirds of the debt to a little over 20 millions of principal and interest. Of course the calculation leaves out all compound interest. If this calculation be accurate, it shows that the debt has reached its present amount only by repeated compounding the interest. (ED. NEWS.)

In a statement dated Dec. 1, 1871, Gen. Asa Rogers, then Second Auditor, reported the principal of the "old regis-tered and coupon debt" of 1861 at \$31.-143.223.60. One third of that is \$10.381.-074.23, and this being "referred" to W. Va. leaves \$20,762.148,06 as the portion of the debt, as of 1861, which Virginia should assume. The interest on that sum at 6 per cent. from 1861 to 1871 is \$12.457.288.80,—making principal and interest at the latter date amount to \$33.— 219.436.86. But between 1871 and 1880 the Sinking fund redeemed \$5,226,368,37 In our bonds, leaving a principal of only \$15,535,775,69. Apportioning the time between 1871 and 1880 (in the absence of precise data) so as to calculate interest for four years on the unreduced princi-pal and for five years on the reduced sum, at 6 per cent., we have between the dates given interest accruing to the amount of \$9.643.619.45. But the Sinkng fund, besides redeeming the princi-pal already noted, also redeemed \$450.-J. R. Crumley, that inasmuch as the \$10.80 of interest. The Second Auditor Presbyterians were about to establish lee reports that from 1861 to 1880 this Virginia has paid interest to the amount of \$16.830.379.91. So that the account, eithout abating the rate of 6 per cent. or a day and without discarding a cent undertake the responsibility of furnish-of the war and reconstruction interest ing to this community a good Public vill stand thus:

Firginia's Principal Debt... \$30.762.168.00 microst at 6 per cent. from 1761 to treat at 6 per cant. from 1671 to 12.457.250,00 642,845 086.28 after consultation in regard to the mat-

sterest redeemed... \$16,430.575 01. sterest redeemed... \$50.570 gc. sinelpal redeemed... 5.526.368 37.
